

# How to hold a charity fun day!

Tombolas, raffles, magicians – it can only mean a fun day for all!

## Planning your fun day

Choose a date that doesn't clash with other things happening in your community or the calendar year.

We can't always rely on the British weather so, if you're planning to hold an outdoor event, it may be worth putting in place a contingency plan – could you move your event indoors?

Contact your local schools, community centres and pub gardens which are great venues for a big event.

However much you raise, your support will make a huge difference to the 11 million people affected by deafness, hearing loss or tinnitus.

**Thank you for fundraising for Action on Hearing Loss.**
